👤 ABOUT ME

After getting acquainted with the web-development, it has become a part of my life, another hobby has appeared. Now, along with snowboarding and modeling robotics, I continue to develop most of my life. I plan to become a front-end-developer middle in 2 years

⚙ PROJECTS

- Created a personal website for a winery using HTML, CSS, JS and using the Bootstrap grid.
- Developed and integrated a site for thematic reviews of games on CMS WordPress. Also created 3 websites for clients to conduct business using HTML, CSS, JQuery. Mobile , Slovo , gamega.org
- Working in a team, he took part in the development of the financial services website Mundo.expert . My tasks included the layout of the template from the .fig file into pixel-perfect using PUG, SASS technologies using the GULP assembler. It also required cross-browser and semantic layout. The team used the GIT version control system.
