ABOUT ME

After getting acquainted with the web-development it has become a part of my life, another hobby has appeared. Now, along with snowboarding and robotics, I plan to master my Front End development skills.

PROJECTS

- Created a personal website for a winery using HTML, CSS, JS and Bootstrap grid.
- Developed and integrated a website for thematic game reviews with WordPress CMS. Also created websites using HTML, CSS, JQuery: Mobile, Slovo, gamega.org
- Took part in the development of the financial services website Mundo.expert. My tasks included the layout of the template from the .fig file into pixel-perfect using PUG, SASS technologies using GULP. It also required cross-browser and semantic layout. The team used the Git version control system.
